## Summary

Dedicated and highly skilled software developer with a passion for creating efficient and scalable software solutions. Seeking to contribute my expertise in software development and problem-solving to a dynamic team or organization.

I am an accomplished software developer with more than 2 years of experience in full-stack development, specializing in MySQL, Python, Java, PHP, JavaScript, Spring boot, cakePhp framework, TypeScript, GraphQL, Reactjs, React-Native and Node.js among others. I have a proven track record of delivering high-quality software applications and possess strong problem-solving and communication skills. My expertise includes software design, development, testing, and maintenance.
